At **Raffles Kidz International**, we believe that children are naturally curious, active and competent learners who construct their own learning through exploratory and purposeful play. Our teachers support this process by facilitating, scaffolding, modelling and inspiring them in their learning journey. Parents are our partners, whom we actively involve and collaborate with, in educating our children. We thoughtfully design our learning environment for children to explore and play while also providing them with opportunities to interact with people, nature and the community.

We support and educate the whole child by developing our children's minds and hearts to become life-long learners.

# OUR VISION

---

We are committed to educate the whole child to have the best head start in life.

# OUR WHOLE CHILD

---

## Confident Communicator

---

Our children are self-assured and speak with confidence. They listen carefully, respect one another and are not afraid to express their ideas, views and needs effectively and clearly in daily situations.

## Independent Thinker

---

Our children are perceptive and can think on their feet. They are able to use their own judgement, differentiate between right and wrong, and think critically to solve different problems.

## Collaborative Team Player

---

Our children are team players and leaders. They work well in teams during group activities and do not hesitate to take the lead.

## Open-minded Inquirer

---

Our children are inquisitive with a thirst for knowledge. They are curious learners, open to ask questions and explore. They can effectively apply what they have learnt in real life.

## Creative Contributor

---

Our children are innovative and can think out of the box. They know that imagination has no bounds and are willing to explore different ways of doing things better.

# OUR MISSION

---

## Children

---

We inspire our children to become confident, intelligent and creative learners with integrity.

## Teacher

---

We support our teachers to achieve professional development and work-life balance.

## Parent

---

We partner with our parents to shape our children's learning and development.

## Community

---

We contribute to our community to maintain family and social harmony.

# OUR PEDAGOGY

Our bilingual curriculum caters to the holistic development of the whole child, with an emphasis on academic foundation, critical thinking, knowledge acquisition and problem solving skills.

To achieve these, our pedagogy has the following four pillars:

## Immersion Model

Our interactive, cohesive and immersive bilingual learning environment where teachers co-teach, deliver instructions and carry out conversations in both languages paves the way for children to become effectively bilingual.

## Project Approach

Teachers are facilitators in this approach and children are encouraged to think critically and creatively, ask questions and solve authentic problems by embarking on projects based on realistic and familiar contexts.

## Montessori Method

Children's Language and Numeracy foundational skills are developed through the structured Montessori Method which allows room for differentiated, independent, and self-paced learning to occur.

## Enrichment Programme

'Creative Artist', 'Culture and Drama' and 'Gourmet Chef' lessons form our core enrichment programmes through which the exploration of and appreciation for Art, Culture and Cookery takes place. Creativity, Literacy and practical life skills are some of the key learning outcomes.

# OUR CURRICULUM

---

Our comprehensive, structured and interactive curriculum is built to develop our children's social dispositions and help them acquire skills and knowledge.

## CORE MODULE

---

We equip our children and nurture their interest in the fundamental core subjects of English, Mandarin and Mathematics to prepare them for primary school.

### Love for English

- Montessori Method

### Love for Chinese

- Literacy-based Method

### Math Thinker

- Montessori Method

## ENRICHMENT MODULE

---

Our children enjoy a holistic curriculum that will develop their creativity and logical reasoning at the same time.

### Gourmet Chef

- Inquiry-based Learning

### Creative Artist

- Inquiry-based Learning

### Culture & Drama

- Role-play
- Dramatisation

## INQUIRY MODULE

---

We teach our children critical thinking and problem-solving, and enhance their collaboration skills through team-based learning approaches.

### Project Explorer (English)

- Inquiry-based Learning

### Project Explorer (Chinese)

- Inquiry-based Learning

## OPEN PLAY MODULE

---

Driven by individual interest, our children will learn through meaningful and purposeful play to develop their motor and social skills.

### Learning Corner

- Language
- Reading
- Discovery
- Manipulative
- Arts
- Dramatic

### Outdoor Fitness

- Playground
- Obstacle Challenge
- Splash & Splash

# OUR PROGRAMMES

---

## **INFANT** **(2 - 18 MONTHS)**

---

Our nurturing and dedicated teachers are trained to establish positive and trusting relationships with the infants and engage and build upon their understanding of the world through active exploration. Children further develop empathy and social skills through their play.

## **PRE-NURSERY** **(18 - 30 MONTHS)**

---

A range of hands-on discovery and exploratory activities are conducted through our structured programme in a carefully crafted learning environment, thereby allowing children to learn about the world, hone their social and physical skills, and develop independence.

## **NURSERY**

**(30 MONTHS - 4 YEARS OLD)**

---

Our purposefully designed learning environment and bilingual curriculum empower teachers to work together to offer a balanced and holistic programme that cultivates lifelong learners with a thirst for knowledge and learning, and who are effectively bilingual, problem-solvers and team players.

## **KINDERGARTEN**

**(5 - 6 YEARS OLD)**

---

We aim to ensure a seamless transition into primary school by helping children build a strong academic foundation in Literacy and Numeracy and offering fun, innovative and enriching activities through in-house programmes and outdoor excursions designed to develop their world perspective and social skills.

# WHAT DO PARENTS THINK OF US?

---

“ We were worried that he would have difficulties in interacting with others at school and achieve developmental milestones. But under the care of his teachers, within a few months, he has surprised me with many things that he is capable of doing and we would say that he has progressed well. I am grateful that my boy gets to attend a school with such outstanding and passionate teachers. In RKI I am assured that my boy is in good hands. ”

**PARENTS OF ETHAN (N2),  
PUNGGOL**

“ As a working first time mom, I had a hard time overcoming the separation anxiety with my 4 months old son. During the first 2 weeks of school, teachers constantly update about his progress giving us a peace of mind at work. My child adapted very well and we can tell that he is happy to be in school. He always smiles when he sees his teachers. ”

**PARENTS OF KEITH (INFANT),  
JURONG WEST**

“ My son has just joined the centre three months ago but we felt that it has been a long time. As working parents, my son spends more time in the childcare than home. So, it's really comforting and assuring to witness and experience the high level of professionalism, love and care which the team has showered on my kid. ”

**PARENTS OF LEANDRO (PN),  
YIO CHU KANG**

“ Kaeden was not able to talk when he started school and looking at his progress now, we can only thank Raffles Kidz and the teachers. Kaeden looks forward to school everyday and frequently mentions good things about all the teachers, even those who are not teaching his class. I am very extremely grateful and will definitely recommend my friends to the school. ”

**PARENTS OF KAEDEN KWOK (K2),  
BUKIT PANJANG**

# OUR INNOVATIVE LEARNING ENVIRONMENT

Children can look forward to an enriching, interactive and fully engaged learning experience in all our schools.
